

Apricus Medical Group is a network of fully licensed and credentialed physicians, specialists, nurse practitioners, and physician assistants that provide medical services to residents at home. Our team utilizes innovative equipment, best practices, and an advanced electronic medical record system to provide the best care leading to the best patient outcomes.

We bring the doctor to the patient in assisted, independent, group home and memory care communities. Working in partnership with laboratories, medical services and pharmacies Apricus Medical Group brings comprehensive on-site coordinated care to the residents; alleviating the stress and hassle of transportation and wait time issues often involved with doctor visits.

Apricus was designed by local healthcare experts to help you. We've carefully thought about how to make healthcare easier while never forgetting that it is people who care for people. We look forward to lowering your costs while providing you with flexible, convenient proactive medical solutions.

*House Call*

## Our Practice

### HASSLE FREE, INSURANCE COVERED CARE:

Apricus Medical Group practitioners service patients who are home-bound and require physician visits to provide ongoing care. Apricus Medical Group provides a comprehensive range of medical diagnostic and consultative services, while patient care is coordinated between families, nursing agencies and home health services

**Hospital Aftercare:** when transitional care delivery and treatment protocol coordination are required to avoid frequent and/or reoccurring hospital visits

Visits are covered by Medicare as well as many other insurance providers.
